

GAYA CAMPONI

Visionary Contemporary Mural Art

MURAL PORTFOLIO

As an exponent of Contemporary Visionary Art, Gaya Camponi Benaglia aims to go beyond the physical world, to offer a broader vision of Consciousness, through Mystical and Spiritual themes.

The artist's style is an alchemy of personal awareness enriched by her travels and experiences of living with Ancient Tribal Cultures.

The artist sees the values of humanity emerge, based on naturalistic and sacred scenarios and she projects her new art for the future through a prayer for this world.

The exceptional glimpse of heaven to celebrate the gaiety of young indigenous people, culturally distant from any form of conflict and loss of true values.

A tangle of vibrant lines detaches from the material level, made sacred by the Energy itself, on which the bodies flow with their vital momentum out of their starting dimension.

Each painting is a true story of the artist' personal journey.

The observer finds their spiritual healing and sensory peace through a harmony of colors, shapes and spaces.

The dream, a key element, romantic and real, unites the seen with the unseen, born from the spirit, captured and in turn made manifest as in a spell.

The symbolism of Sacred Geometry plays a key role in showing us our profound connection to our ancestral roots and knowledge.

The third eye opens and the sacred finds its balance at the center of the two universal forces of masculine and feminine. The connection with Mother Earth allows you to rediscover your ancient origins. New discoveries in quantum physics help to understand how the Universe works.

MURAL

The Wall Art project was born from the union between two passions: wall painting and travel. After a decade of studying techniques, painting puts itself at the service of tourist places around the world.

Murals can be realized in:

- Private residences and public places
- Exterior and interior spaces
- Masonry walls and wooden walls

Equipped with empathy, for many years Gaya has been able to connect with people and transform ordinary public places into their best version.

ABOUT THE ARTIST

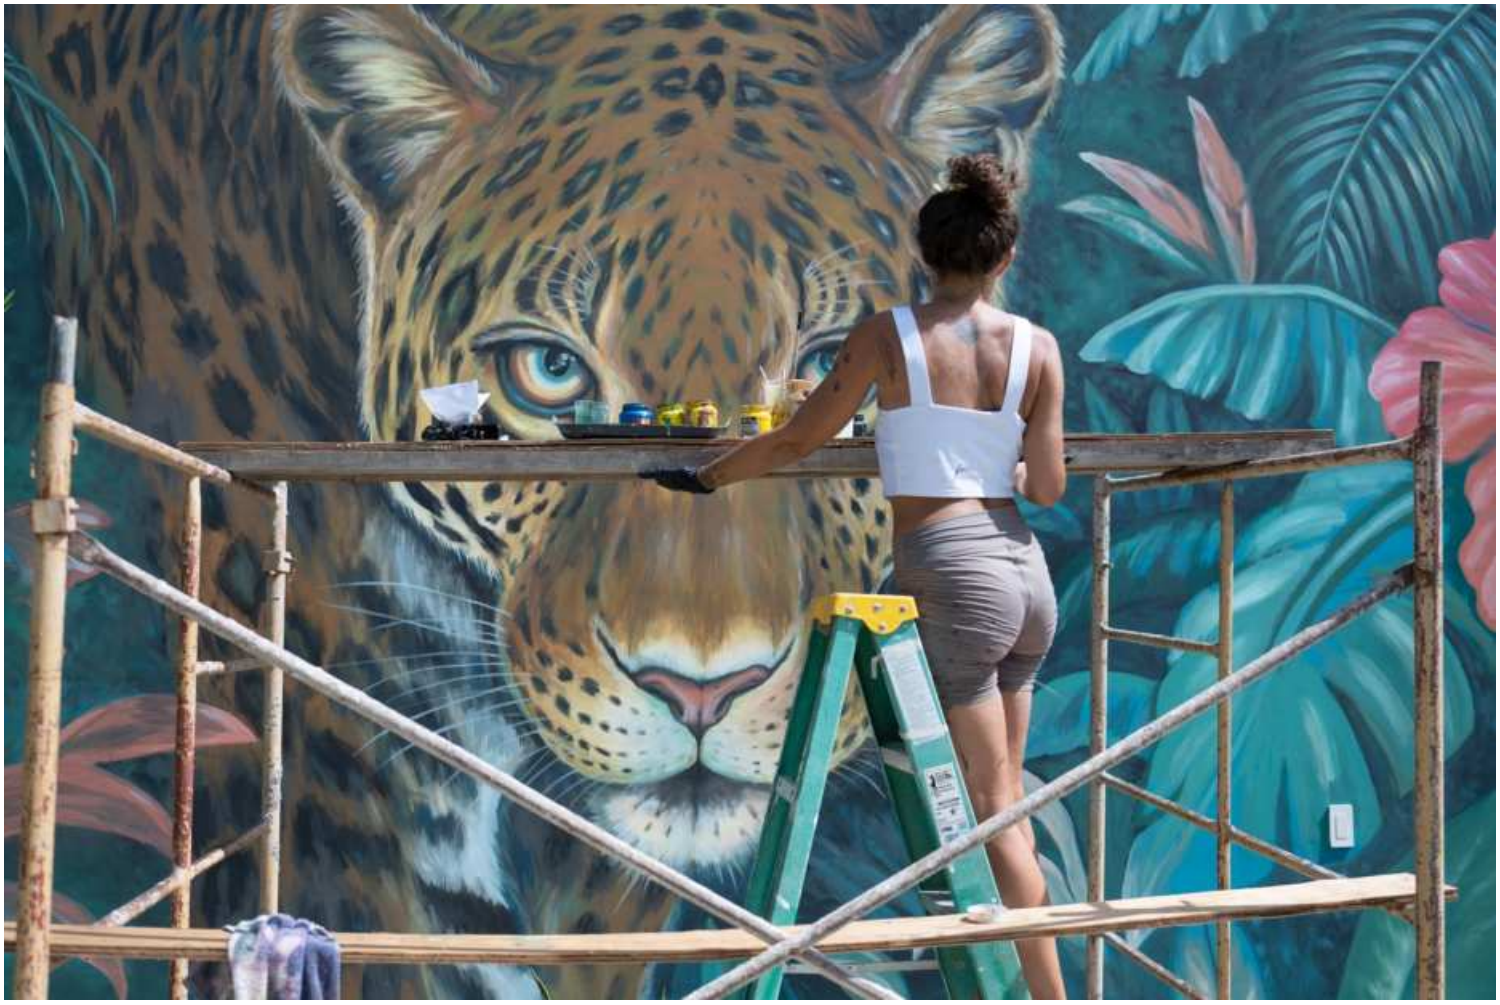

Gaya Camponi is an Italian multidisciplinary artist and muralist whose work has travelled across Europe, Australia, Asia and the Americas. Her large-scale paintings transform walls and architectural surfaces into vivid, immersive environments shaped by nature, sacred art and deities from around the world. Her international mural projects span Italy, Australia, India, Vietnam, Mexico, Turkey, Brazil, Peru, Guatemala, Sri Lanka and Bolivia. Informed by travel and encounters with Indigenous and ancestral cultures, her work brings together expressive imagery, spiritual symbolism and sacred geometry.

VALUATION CERTIFICATE

Issued by Associazione Culturale Varaggio Art (Varazze) on 8 September 2022, the certificate assigned Gaia a numerical coefficient of 3.9.

The system considers qualitative and quantitative indicators such as exhibitions, cultural events, publications, recognition, study, teaching and professional activity.

The coefficient is a conventional reference for evaluation, not an absolute value or a guaranteed market price. Each mural commission also depends on scale, site, materials, access, preparation and production requirements.
